Additional Private Loan Information

Private loan funds must be certified with your lender by our department. Typically, it takes two to three weeks before the funds are available to our school. Once funds are available they will be released to you no sooner than the start of any given quarter, via your BankMobile Disbursements. **The student is responsible for understanding all rules and regulations provided by the lender.**

The loan amount(s) for which you are eligible may be less than what you request, based on your Cost of Attendance. Changes to this request must be made by completing a new form and must be made during or before the quarter for which changes are requested.

Please plan carefully. Changes or adjustments may take several weeks to process.
