Excerpts from ASBTC Policies & Procedures Regarding Senators

Article 2 – Senators

All senator procedures will follow the rules outlined in Article 9 of the constitution. The following sections will provide clarification on implementation guidelines.

Section A

Senators have 15 minutes to be considered late or absent for senate meetings. Senators need 75% attendance to receive stipend.

Section B

If an alternate takes over a primary senator's position and attends more than 50% of senate meetings in place of the senator, then the alternate receives their senator's stipend.

Section C

Programs need a total of 75% attendance between a combination of their senators and alternates to receive program funds. Once a program drops below 85% attendance, the executives will address the program in person. If the explanation in the drop of attendance is unreasonable or the executives see that it will not get corrected, a vote will be taken for a new senator.
