For Immediate Release

BELLINGHAM TECHNICAL COLLEGE HOSTS LINUXFEST NORTHWEST MAY 6-7

Free Event — Hot issues such as privacy, surveillance and security are among the many topics covered at this year's LinuxFest Northwest, taking place at Bellingham Technical College Saturday, May 6, and Sunday, May 7.

LinuxFest Northwest is an annual Open Source event that usually draws 1,500 to 2,000 people interested in learning and sharing ideas about accessible technology. The Fest runs from 9 a.m.-5 p.m. both days, and admission is free.

This year's event will feature about 65 presentations, with session topics that range in complexity so there are activities to interest novices and professionals alike. Topics for sessions include building Internet of Things devices, cloud security, automation, coding and more, as well as a panel with the ACLU and others to discuss online civil liberties. For a complete list of sessions, go online to www.linuxfestnorthwest.org.

In addition to the sessions, the event also will include robotics demonstrations, makerspace exhibits, great tech raffles and more.

BTC IT students build the network and help to staff the event in cooperation with the Bellingham Linux Users Group planning team.
