About Bellingham Technical College

Bellingham Technical College has been training students for in-demand, high-paying careers for more than 60 years. At BTC, the focus is always on our students and helping them succeed. We’re proud to have one of the highest graduation rates of all public two-year colleges in Washington state, as well as high job-placement rates for our graduates.

On our vibrant campus in the heart of Bellingham, we educate a diverse population of over 5,000 students in 39 associate degrees, 55 certificate programs and two bachelor of applied science degrees.

BTC students prepare for careers in many areas, including high-demand fields such as advanced manufacturing, engineering, nursing, accounting and more.

Our approach is high-tech, hands-on, and student-centered. Smaller classes mean our dedicated instructors really know you, and our lectures are reinforced in the lab, whether it is in a fast-paced kitchen, on the welding floor, or in the nursing simulation lab.

At every step, you’ll know that BTC faculty and employees are here to support you in pursuit of your goals.

Information Technology at BTC

BTC’s programs in Information Technology are ideal for students with an aptitude or interest in technology, troubleshooting, and working with computers.

You’ll learn skills needed for a rewarding career in the fast-paced, ever-changing world of information technology. Students may work for large and small employers as database administrators, IT help desk technicians, network administrators, and IT managers in software companies, industrial firms, education, hospitals, and government.

The employment outlook for program graduates is strong, and students can expect to earn excellent wages. In addition to providing hands-on training and solid academic instruction, BTC’s administration collaborates with local industry, employers, and our state and local governments to determine the skills our workforce requires to keep the economy strong.

BTC Degree Options

**Associate of Applied Science (AAS) degree:**
A two-year associate degree that allows you to go directly to work in your field.

**Associate of Applied Science-Transfer (AAS-T) degree:**
A two-year associate degree with transferable general education courses that allows you to either go directly into your field, transfer to a specific program at a four-year college or university, or prepare for your bachelor of applied science degree at BTC.

**Bachelor of Applied Science (BAS) degree:**
A two-year bachelor’s degree that can be added on top of an existing associate degree from an accredited college, or even a previous bachelor’s degree.

**Transitioning to BTC:** BTC accepts both traditional and non-traditional credit for equivalency to BTC courses on a case-by-case basis. Contact Admissions at admissions@btc.edu or call 360.752.8345.

*Wage & Employment Data Sources*

**Earning potential:** Washington State Employment Security Department 2018 Occupational Employment and Wage Estimates (esd.wa.gov) reflect 2014–17 employment; average annual wage reflects the 50th percentile, and earning potential reflects the 75th percentile of annual wages across Washington state.

Choose BTC’s Computer Networking program to train for positions such as network technician, network specialist, network administrator, network security administrator, help desk specialist, or Local Area Network (LAN) technician. Learn how to manage computer networks, troubleshoot and repair computer systems, and design, install, and maintain LANs. You can add to your skills with certificates in cloud computing, computer programming and more.

Graduates will find employment opportunities with computer support firms or with small- to large-sized companies that use computer networks, such as financial institutions, insurance companies, schools, hospitals, and universities, as well as federal, state, and local government agencies.

In addition to the required core classes, students choose from one of four specialty tracks — Cloud Computing, Computer Programming, Health Information Technology, and Network Management — each comprising three specialty classes.

The average annual wage in this field is $87,485, with an earning potential of about $111,446 per year.*

“I feel any additional health information education I acquire will ultimately lead me to (healthcare-related job) opportunities, making me a desirable candidate for hire.”
— Gary Kartchner, Computer Networking and Health IT grad
If you enjoy combining technical and customer service skills in a variety of business and office settings, here’s a program to consider.

Our Computer Support Specialist program will train you for a rewarding career as a computer support specialist, software specialist, help desk specialist, training and support coordinator, or PC support specialist.

You’ll learn valuable skills needed by companies ranging from hospitals to financial institutions, large corporations, school districts, and universities. Hardware and software manufacturers also hire program graduates to work as customer service representatives and help desk personnel.

Apply to BTC & Apply for Financial Aid
Apply at www.btc.edu/applyonline and get your Student Identification Number (SID).
Complete the Free Application for Federal Student Aid (FAFSA) online at www.btc.edu/financialaid
Use BTC college code 016227.

Assess Your Starting Point
Degree- and certificate-seeking students need to determine their math and English starting points.
Some programs require certain placement scores before starting program classes. BTC uses multiple measures to determine placement, including assessment testing. Visit: www.btc.edu/assessment

Advising & Registration
Students will meet with Advising and Career Services staff for a mandatory GET Started appointment:
navigate Goals, create an Education Plan, become Tech Ready, and register for classes. Contact Admissions & Advising to schedule your appointment: admissions@btc.edu or call 360.752.8345.
