**BTC DENTAL CLINIC HOSTING SCREENINGS APRIL 25 AND MAY 2 TO FIND PATIENTS ELIGIBLE FOR FREE EXAMS, CLEANINGS & X-RAYS**

Bellingham — Bellingham Technical College (BTC) Dental Hygiene students are hosting screenings on Wednesday, April 25 and May 2, to find patients eligible for free dental care as part of the students' licensing exams.

The ideal patient is someone who has not had their teeth cleaned for a long time. People who think they could be eligible can stop by the dental clinic for a free screening to see if they qualify to be part of the exams. The dental clinic will accept walk-in screenings on April 25 and May 2 from 12-4:30 p.m., or people can call 360.752.8349 to schedule another time.

Screening patients who qualify to participate as a board exam patient will receive their exams, x-rays, and cleanings for free.

Students and community members interested in receiving dental care at a reduced price can schedule an appointment at Bellingham Technical College's Dental Clinic this spring.

The Dental programs at BTC provide affordable dental care at our on-campus dental clinic from October to June, with some summer sessions. The clinic prepares students for their careers in dentistry, providing the opportunity to care for a variety of patients and incorporate classroom learning into real-life, practical applications. Community members benefit by receiving high-quality care at reduced fees. Work is performed by

both licensed professionals and students. Dental services provided by students are closely supervised by licensed staff and faculty.

The clinic is located in Building C on BTC's campus. Free parking is available next to the clinic, though visitors are required to sign in for parking in the C Building lobby.

To schedule an appointment, please call our clinic at 360.752.8349. Bellingham Technical College is located at 3028 Lindbergh Avenue.

### **About Bellingham Technical College**

Bellingham Technical College is accredited by the Northwest Commission on Colleges and Universities, and offers seven direct transfer degrees such as pre-engineering, pre-nursing, electronics, and business, and two Bachelor of Applied Science degrees. BTC offers 38 associate degree and 51 certificate options providing professional technical education to support local and regional industry workforce needs.
